## IOS: How to put a shortcut to settings on your home screen

How to put links on your iPhone to go straight to the setting that you are looking for with one click. It is very handy to get to sync to start a wireless sync, Turn off/on Wifi, Turn off/on Bluetooth, Etc.

Open Safari on your iPhone and go to brdrck.me/settings/

Click on the icon you want add to your home screen. For this example we are going to use Safari

IOS: How to put a shortcut to settings on your home screen

- 1. Click on the icon you want to use for this
- 2. Click on install Safari Shortcut
