

# How to view and download NYLT 2013 pictures

## Starting off

First, select the day you would like to view. If you would like to view downloads, click on the title, or if you would like to view a gallery of images from that day, click the "gallery" dropdown.

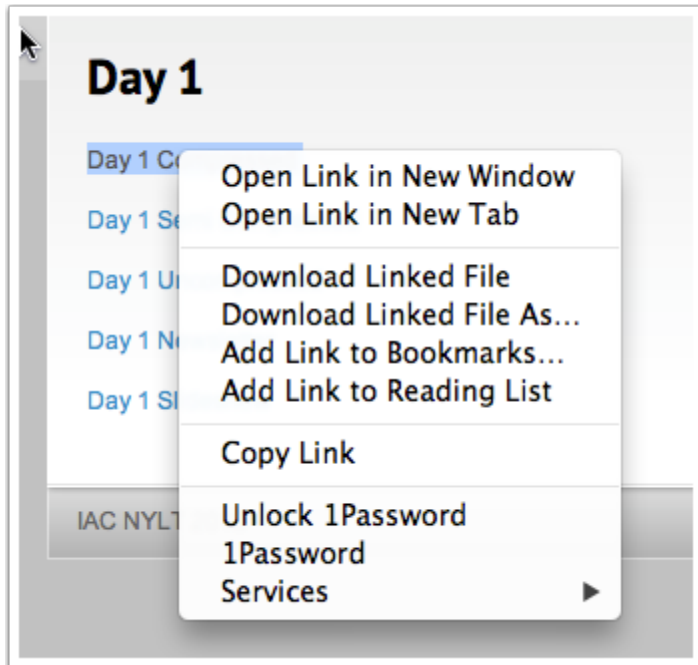

## Viewing Available Downloads

If you click on a day for downloads, you will be presented with a page like this, listing available downloads.

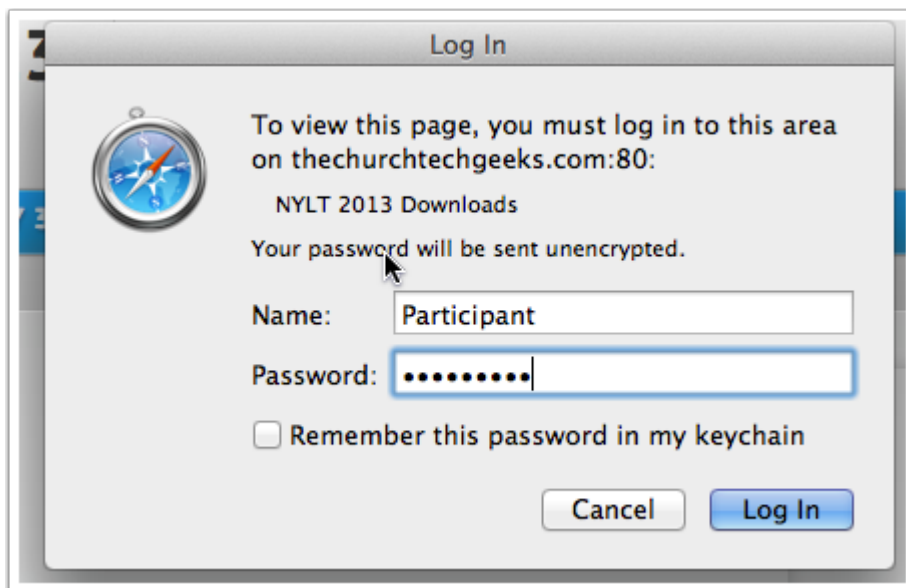

## Downloading a File

If you would like to download one of the files, right click, and select "download linked file", or on Windows "Save target as"

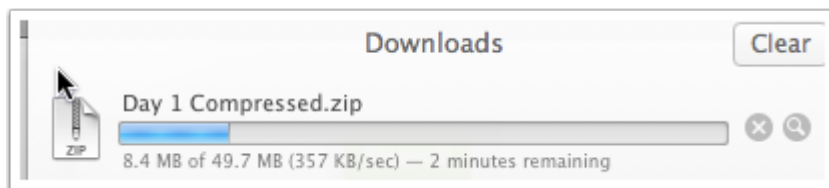

## Log In

You will be asked for a Username and password. The username is Participant and the password is SMART2013 (these ARE case sensitive)

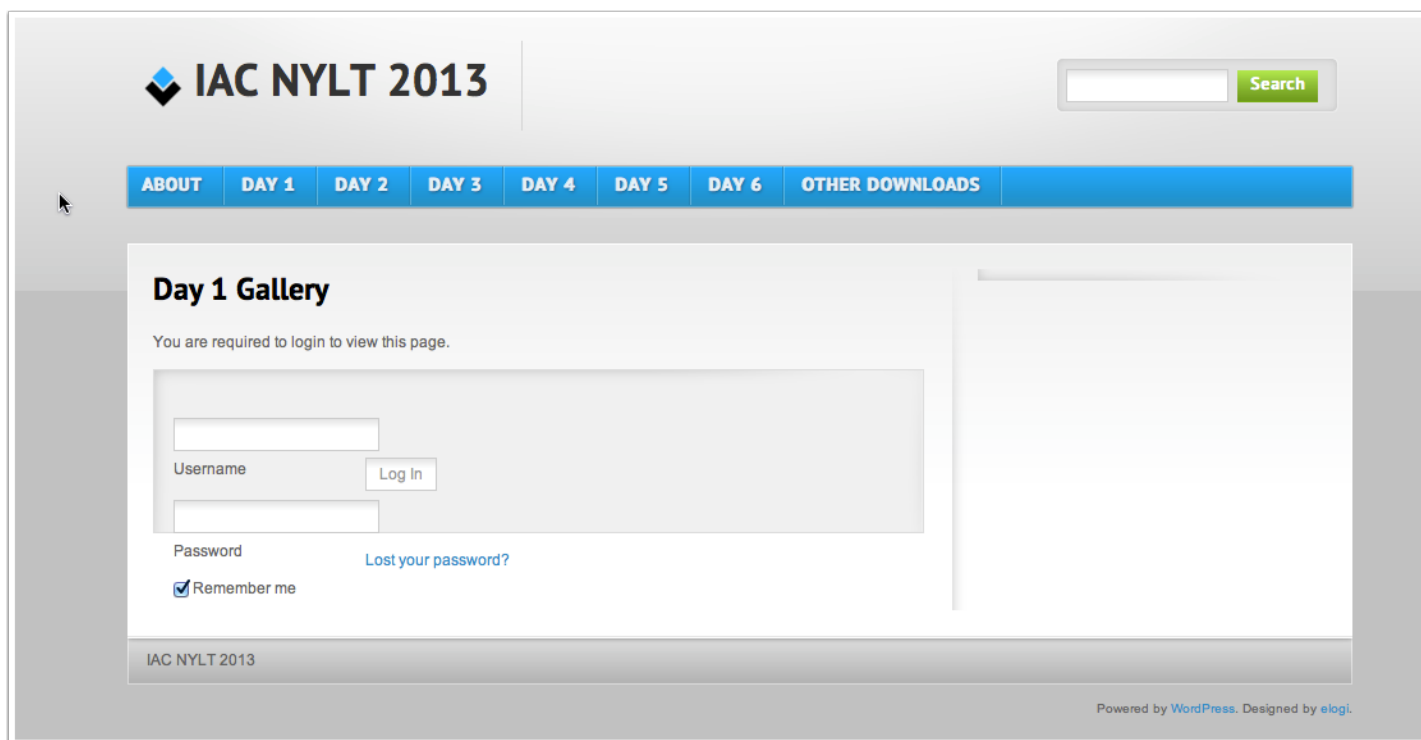

## File Downloading

The file will begin to download.

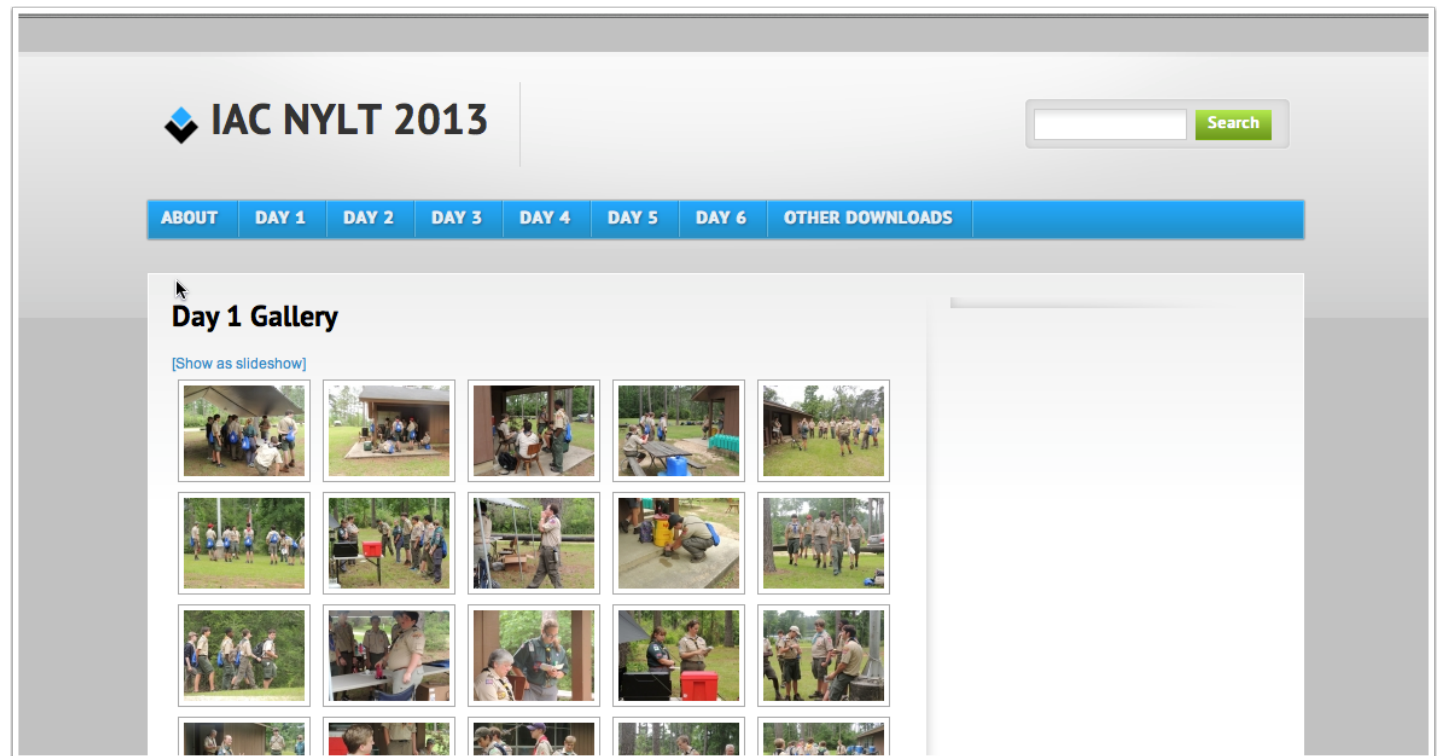

## Viewing the Gallery

If you instead would like to view a gallery of the images, click gallery for the day you would like to view, and you will be presented with a login box. The username and password are again the same, Username: Participant and password SMART2013, again case sensitive

## Gallery View

You will then be presented with a grid of all of the images from that day.

## Viewing Individual Images

To have a larger view of them, click on one, and you may then use the arrow keys on your keyboard to scroll all of the images for that day. You can also use the arrows at the bottom of the screen to navigate between pictures.
